1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 9 and 10 have been cancelled

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Claim 1 contains limitation of a cold start device for advancing injection timing in a cold temperature condition, the cold start device using a piston for opening and closing the sub port; and a governor, wherein the governor performs cold governing for decreasing injected fuel so as to decrease an injected fuel quantity at a time of engine start in a cold temperature condition. The above limitation was not shown or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

3. Claim 1 is allowable. The restriction requirement, as set forth in the Office action mailed on August 29, 2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is**

hereby withdrawn as to any claim that requires all the limitations of an allowable claim. Claims 4, 6, 7, 8, 12, 13, directed to non elected embodiments are no longer withdrawn from consideration because the claims requires all the limitations of an allowable claim. However, claims 9 and 10, directed to non elected groups are withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01
